March 10, 2016

Dear Senator:

Ahead of Senate consideration of the DARK Act, S. 2609, a bill that would pre-empt state labeling laws and establish a voluntary labeling system for genetically engineered foods, we, the undersigned 4,053 chefs, representing 49 states, Puerto Rico, the District of Columbia and the U.S. Virgin Islands, have a fundamental right to know what's in the food we cook and serve our customers. We urge you to reject this bill and any attempt to prevent the mandatory labeling of genetically modified food.

Sincerely,

Tom Colicchio
Co-Founder and Board Member
